

Use Twitter a lot?

 Fancy earning €5? 

Requirements:

- 👉 you follow +200 accounts
- ✌️ you have created +500 tweets/retweets

Where & when:

- 🏠 room B0.02, Computer Science building
- 🕒 11:00 - 16:00, Friday, August 5th

We are 5 MSc students in Computer Science that have created a recommender system for Twitter. Basically a more personalised tweet feed so you see the most important ones first. To see if what we've made is any good we need people to rate (like, dislike, neutral) a whole bunch of tweets. The test should take about 15 minutes and requires you to log in with your Twitter account.
